Stand: 01/2025

What you can look forward to

We have plenty of affordable living space: apartments in student residences, your own apartment, shared apartments – everything is possible here.

You will study in Zittau and Liberec. There is also a compulsory semester abroad in the 3rd semester. Spending time abroad is part of our everyday life.

Recreation, mountains, lakes, two cities rich in cultural diversity: that is where HSZG is located.
By the way: the HSZG plants a tree for every student. If you want, you can even do it yourself.

Here you'll study on a level playing field - not just with your fellow students. Thanks to small student groups, our lecturers will respond to your individual needs.

There's no shortage of partying here: student residence parties, festivals, record sessions, students' club.
The only challenge for you is to make up your mind.

European Business

(English)

**Bachelor's degree programme
Double degree with TU Liberec**

Your study programme

Bachelor programme

Practical, international and future-orientated

In the English-language European Business degree programme, you will study both in Zittau (D) and at TU Liberec (CZ). The programme offers you the unique opportunity of a practice-orientated and internationally focused education. You will be optimally prepared for the challenges of the globalised business world, gain valuable experience abroad and build an international network.

Practice-orientated learning

Courses and projects as well as an obligatory internship in the 5th semester will help develop your solution-orientated thinking. At the same time, they provide you with important professional skills and optimally prepare you for your career. The basics of business administration are supplemented by practical modules.

International orientation - your experience abroad

A key focus of the degree programme is on your international experience:

Launch in two countries

The 1st semester takes place both in Zittau (D) and in Liberec (CZ). The 2nd semester continues in Liberec. This allows you to familiarise yourself with different teaching methods and gain your first international experience.

Experience a semester abroad

In the 3rd semester, you will study at a renowned partner university in Europe. You can improve your language skills and develop intercultural competences. The 4th semester is in Zittau, but also includes a one-week stay at a European partner university.

Gain practical experience

In the 5th semester, the internship offers you the opportunity to apply your theoretical knowledge directly in practice. If you wish, you can do this abroad.

Academic work

The 6th semester is dedicated to the Bachelor's thesis, in which you can work on a topic of your choice, also in conjunction with a company.

Study in up to five countries in six semesters! The HSZG makes it possible.

A look into the future

Your study goals
